PROFILE SUMMARY

Full-Stack Developer focused on performance and scalability. Strong expertise in TypeScript and Next.js for modern application development, with experience designing secure APIs using Node.js/Express and efficiently managing databases. Skilled in optimizing load times and building robust authentication systems for production environments.

EDUCATION

2025 - PRESENT

RIWI

- Full-Stack Development

CERTIFICATIONS

2023 - 2024

UDEMY

- Databases Academy
- JavaScript Fundamentals
- React with TypeScript

SKILLS

- Frontend:** React, Next.js, TypeScript, Tailwind CSS.
- Backend:** Node.js, Express, Prisma ORM.
- Database:** PostgreSQL, MySQL, MongoDB.
- Tools:** Git, GitHub, Docker.

LANGUAGES

- Español: Native
- English: Intermediate

WORK EXPERIENCE

Riwi - Full Stack Developer Trainee

2025 - PRESENT

- Full-Stack Development:** Built scalable web applications using **React**, **Node.js** and **Express**, implementing **MVC architecture** and clean code standards.
- Secure SPAs:** Developed SPAs with **CRUD** operations, authentication, and role-based access control.
- Modern UI & Routing:** Created **responsive interfaces**, implementing protected routes and session persistence.
- Agile Collaboration:** Worked in **Agile/Scrum** environments and delivering features in iterative sprints.

Freelance - Full-Stack Developer

2024 - 2025

- TaskLancer** (SaaS - In Progress): Building a freelance management platform with **Next.js** and **Prisma**, implementing secure authentication (**NextAuth**) and role-based access control with PostgreSQL.
- Deployed Real-World Apps:** Created full-stack solutions such as **PetMatch** and **GreenPath Market**, integrating **Mercado Pago** and designing efficient **RESTful APIs**.
- Full-Stack Architecture:** Developing scalable applications using **React**, **TypeScript**, **Node.js** and **Express**, with a strong focus on **security (JWT)**, performance optimization and clean code.
- Project Management:** Collaborating with stakeholders to define requirements and deliver **custom software solutions** tailored to business needs.
